Cc: Public Records <publicrecords@oceansprings-ms.gov>

Dear City Clerk:

I am writing to follow up on my prior public records request submitted in March, which sought:

“Any resolution, motion, or vote of the Ocean Springs Board of Aldermen authorizing the Mayor and/or City Clerk to execute the GCRF grant agreement for the 1515 Government Street project.”

In response, the City provided a 2019 resolution authorizing a grant application and a 2021 Memorandum of Understanding. Neither document contains language authorizing execution of GCRF grant agreements signed / executed between 2022 and 2024.

After extensive review of the City's publicly available records, I was able to locate minutes from the May 17, 2022 Board of Aldermen meeting reflecting a motion and vote authorizing the Mayor to execute the GCRF Program Grant Agreement. I have attached those minutes for reference.

Based on this, I am requesting clarification of the City's response:

1. Please explain why the May 17, 2022 motion and vote was not identified and produced as a responsive record.
2. Please confirm whether Board of Aldermen meeting minutes were searched as part of the City's response to this request.
3. Please produce any additional resolutions, motions, or votes authorizing execution of GCRF grant agreements related to the 1515 Government Street project, including any approvals tied to separate phases of funding.

If no additional responsive records exist, please confirm that in writing.

This request is made pursuant to the Mississippi Public Records Act. I appreciate your prompt attention to ensuring the completeness of the record.

Sincerely,

Eric Brian Rosenberg

Dear City Clerk:

I am writing to follow up again regarding my March 16, 2026 public records request, and my April 10, 2026 correspondence identifying deficiencies in the City's response.

To date, I have not received any reply.

As outlined in my prior email, the City's initial production did not include a responsive record reflecting the Board of Aldermen's authorization for execution of the GCRF grant agreement. I subsequently located minutes from the May 17, 2022 meeting reflecting such authorization, which were not identified or produced by the City.

However, this does not resolve the request.

The GCRF project involves multiple executed grant agreements, including separate phases of funding, as well as amendments to those agreements. As such, additional authorizations by the Board of Aldermen would reasonably be expected.

My request specifically seeks any resolution, motion, or vote authorizing execution of those agreements. I am therefore still seeking all responsive records, including any approvals related to additional agreements and amendments.

In my April 10 email, I also requested clarification as to whether Board of Aldermen meeting minutes were searched as part of the City's response. That request remains unanswered.

Accordingly, this public records request has not been properly answered or completed. The Mississippi Public Records Act requires a reasonable search for responsive records and a complete response. At this point, the lack of follow-up raises concerns as to whether all responsive records have been identified and produced.

Please provide:

1. A response addressing the questions raised in my April 10 email;

2. Any additional responsive records, including authorizations related to separate agreements or amendments; or
3. A written confirmation that no additional responsive records exist.

If no further response is received, I will consider the request constructively denied and evaluate appropriate next steps to ensure compliance with the Act.

I appreciate your prompt attention to this matter.

Sincerely,
Eric Brian Rosenberg
